Bureau of Alcohol, Tobacco, Firearms and Explosives agents on Friday seized more than \$1.3 million in weapons including five illegal silencers from a California gun store, according to a statement from

the agency. The agents seized the assault weapons and silencers from Lucky Gunner in Simi Valley. "The sale and distribution of silencers has long been a leading indicator of a growing number of violent crimes involving gun-use," said Christopher Dearborn, special agent in charge of the ATF in Los Angeles. The ATF's Los Angeles field division also seized more than 1,000 rounds of ammunition from the shop. It's unclear if that ammunition was purchased from the Lucky Gunner website. What's New In Tweet Eye Seller?

Tweets Eye is a Twitter-feed style client

that lets you read the recent Tweets by anyone you follow, regardless of whether the user is following you back. With Tweets Eye, you can quickly see what your followers are up to in real time and see the Tweets they are Tweeting, making it easy for you to get to know them, and understand what they have posted recently, what they are interested in, and what topics they like. You can reply directly to any Tweet, and you can follow users and have them follow you back (following is optional). You can opt to follow users who you don't know, but who you think are interesting, or are popular and have a large following. When you follow someone, their profile page is updated to include a box which says

"Follow" right below their Twitter name. You can then go back to your dashboard and find their profile, and read what they have Tweeted. Tweets Eye runs completely in the background, to show you the latest Tweets without you having to do anything. You can visit the Twitter web site, perform your standard Twitter browsing, if you wish, without losing track of the latest Tweets by your followers. You can also have up to six different dashboards open at the same time, each with its own set of Tweets. You can go back to your own dashboard at any time. Each dashboard has its own set of Tweets - you won't see Tweets from others' dashboards. You can view Tweets sent by any user you follow, view

Tweets sent by users you don't follow, view all the Tweets by the user you're currently viewing, or view all the Tweets by all users you follow. You can also view specific Tweets sent by any user you follow, or view specific Tweets sent by specific users. Tweets Eye lets you filter Tweets by date range, and view Tweets by only specific users. You can also limit the number of Tweets you will see per user, and view the top Tweets. You can view Tweets sent by users you follow, or by users you don't follow. You can view all Tweets of a user (in the format of Tweets Eye), as well as view specific Tweets of a user. You can have one or more dashboards open at the same time. You can look at the latest Tweets by specific

users (those you follow), or by specific
users you don
